

CONFIGURATION GUIDE

1

Connect Airy to its power supply and turn it on by holding the *Power* button for 4 seconds.

The central logo will flash blue to indicate the activation of the configuration mode.

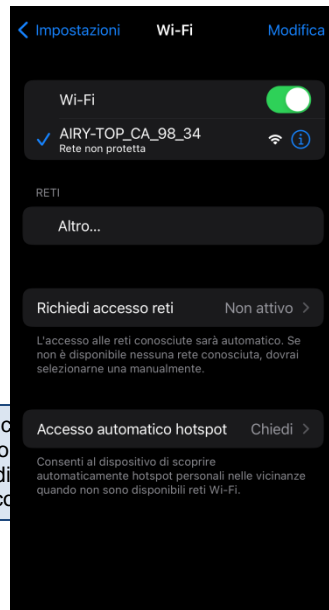

To proceed with the configuration, it is necessary to use a device with WiFi connectivity.

Per procedere con la configurazione, è necessario utilizzare un dispositivo dotato di connettività WiFi.

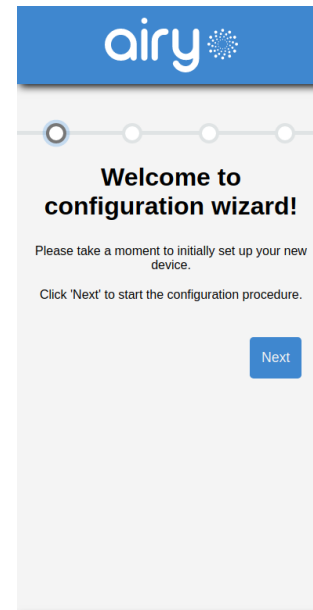

2

Connect to the WiFi network **AIRY_xx_xx_xx**, where the x's represent the last 6 characters of the MAC address shown on the label.

3

From any browser, go to <http://192.168.223.1> and login using username **airy** and password the last 6 digits of the serial number shown on the label.

4

Select the network to connect to from those available or enter it manually.
Then enter the password if requested.
